

I learned via the evening news that Sinclair stations will be broadcasting an anti-Kerry documentary just days before the election. This is an outrage. An OUTRAGE. The FCC exists to guard the public airways from this sort of thing. They are called "public" because we, the public, own them, not the FCC and not Sinclair. I find this abuse of the public airways by Sinclair to be FAR MORE DAMAGING to our democracy than a glimpse of Janet Jackson's boob. Please do your job and take away their license, post haste.
